Alexander McCall Smith

From Ian Rankin to Val McDermid to Alexander McCall Smith, Scottish writers have dominated the British crime fiction market for the past twenty years. The Scottish crime fiction issue of *Clues* seeks to examine this phenomenon. Is the success of Scottish crime fiction attributable to a literary history stretching back to the nineteenth century and beyond, or is it the result of more recent cultural and political developments?

Submissions addressing any aspect of Scottish crime fiction are welcome, but the guest editor would be particularly interested in manuscripts examining the current state of Scottish crime writing, and work that considers the scope and definition of a “national” crime genre. What is achieved by categorizing criminal fictions as Scottish, and to what extent can popular genres engage with national issues? What makes a crime novel Scottish? What are the current trends in Scottish crime writing and the current preoccupations of contemporary Scottish writers? Do these trends and preoccupations represent continuity or change in the history of crime writing in Scotland?
